Response to Amendment

This Action is responsive to Applicant's response received February 16, 2005 wherein claims 1-21 are cancelled and new claims 22-26 are submitted for examination.

Drawings

The drawings received on March 1, 2002 are in compliance.

Allowable Subject Matter

Claims 22-26 are allowable over the prior art of record, renumbered as claims 1-5, respectively.

The following is an examiner's statement of reasons for allowance:

Claim 22 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a method for file conversion including a main application program with a conversion engine and a plug-in including a set of data format definitions that define the format of the data written by a plurality of versions of the plug-in, and converting an instance of data with the conversion engine to a format corresponding to the data format definition for a current version, as claimed in addition to the other claim provisions.

Claims 23-26 depend from claim 22, and are therefore allowable.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to illustrate the state of art with respect to plug-ins and converting systems:

Art Unit: 2161

U.S. Patent No. 6,094,684 of Pallmann

U.S. Patent No. 6,615,212 of Dutta et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
